

WHEN IT COMES TO ENERGY CONSERVATION, CSX IS IN IT FOR THE LONG HAUL.

When it comes to maximizing energy efficiency, ColoCSX is on the right track. Recently partnering with the InvestSmart with JEA program to upgrade their data center's air-conditioning system with variable frequency drivers, they now use only the power they need, when they need it. With the changeover, they're saving nearly \$30,000 and 350,000 kWh per year. JEA remains dedicated to finding new ways for our customers to conserve and save. We celebrate Jacksonville customers like ColoCSX for their leadership and activism in implementing InvestSmart with JEA energy-saving solutions, and as always, are proud to be along for the ride. Want to get on board with energy efficiency? For more information call, 1-888-345-4609 or go to jea.com/investsmart

JEA is a not-for-profit, community-owned utility.
